ANGULAR FRONTEND DEVELOPER:

Skilled Angular Frontend developer with 5+ years of experience in developing and maintaining interactive web applications using technologies like Angular, HTML, CSS, Typescript, Javascript for frontend development and Spring, Java for backend-services and MongoDB databases.

EXPERIENCE:

Technology Analyst - Infosys Ltd, Chennai

Project: Hershey's B2B   *May 2024 - Present*

- Working on creating a new UI screen according to the figma design in Spartacus - Composable storefront using Angular 17 version.
- Actively working on integrating API using HTTP requests using Observables and presenting the data in UI using angular material UI components.
- Developing B2B features like registration page, cart page, product-details page, product search and listing page using SAP storefront.
- Having work knowledge in building and deployment of B2B applications in SAP commerce cloud and actively working on unit test cases for Angular application.

Project: Apple Inc   *May 2022 - April 2024*

- Developed interactive user interfaces with Angular, HTML, CSS, JavaScript, Typescript and Bootstrap to ensure a responsive web application.
- Implemented a new RESTful API using Angular framework using HTTP service calls. Developed and maintained back-end services and APIs using Java Spring.
- Integrated websites with backend services using MongoDB databases, APIs, and deployed using Rio and Spinnaker services.

System Engineer - Tata Consultancy Services, Chennai   *Jan 2020 - May 2022*

Project: Nielsen IQ

- Migrating an existing older web application to the latest Angular framework for optimizing website performance by implementing lazy loading and reducing page load time.
- Implemented RXJS technology for handling asynchronous implementation for API using multiple RXJS operators in frontend that enabled seamless communication between back-end services.
- Experience in working with custom Pipes, Directives and Angular route guards for restricting user access with HTTP Interceptors for authentication for a single page application.
- Collaborated with a team to troubleshoot and debug a web application, increasing overall code quality and improving user experience.

SKILLS:
➢ Angular 17, Angular 8, Angular JS.
➢ Spartacus - SAP Composable Storefront.
➢ Typescript / Javascript
➢ HTML, CSS, SCSS, SASS
➢ Java
➢ MongoDB compass.
➢ Jasmine / Karma unit test case.

TOOLS USED:
➢ Visual Studio code
➢ Eclipse IDE
➢ SAP Commerce Cloud portal
➢ Rio deployment tool
➢ Splunk logs application
➢ Tortoise git

VERSION CONTROL:
➢ Github
➢ Bitbucket
➢ Microsoft Azure

AWARDS AND CERTIFICATIONS:
➢ Infosys Certified Angular Developer
➢ Infosys Certified Front End Web Developer
➢ Udemy - Angular - The Complete Guide (2022 Edition)
➢ Received **Infosys INSTA Awards** on February 2025 as a certificate of appreciation.
